Highest Discount Sales by Category

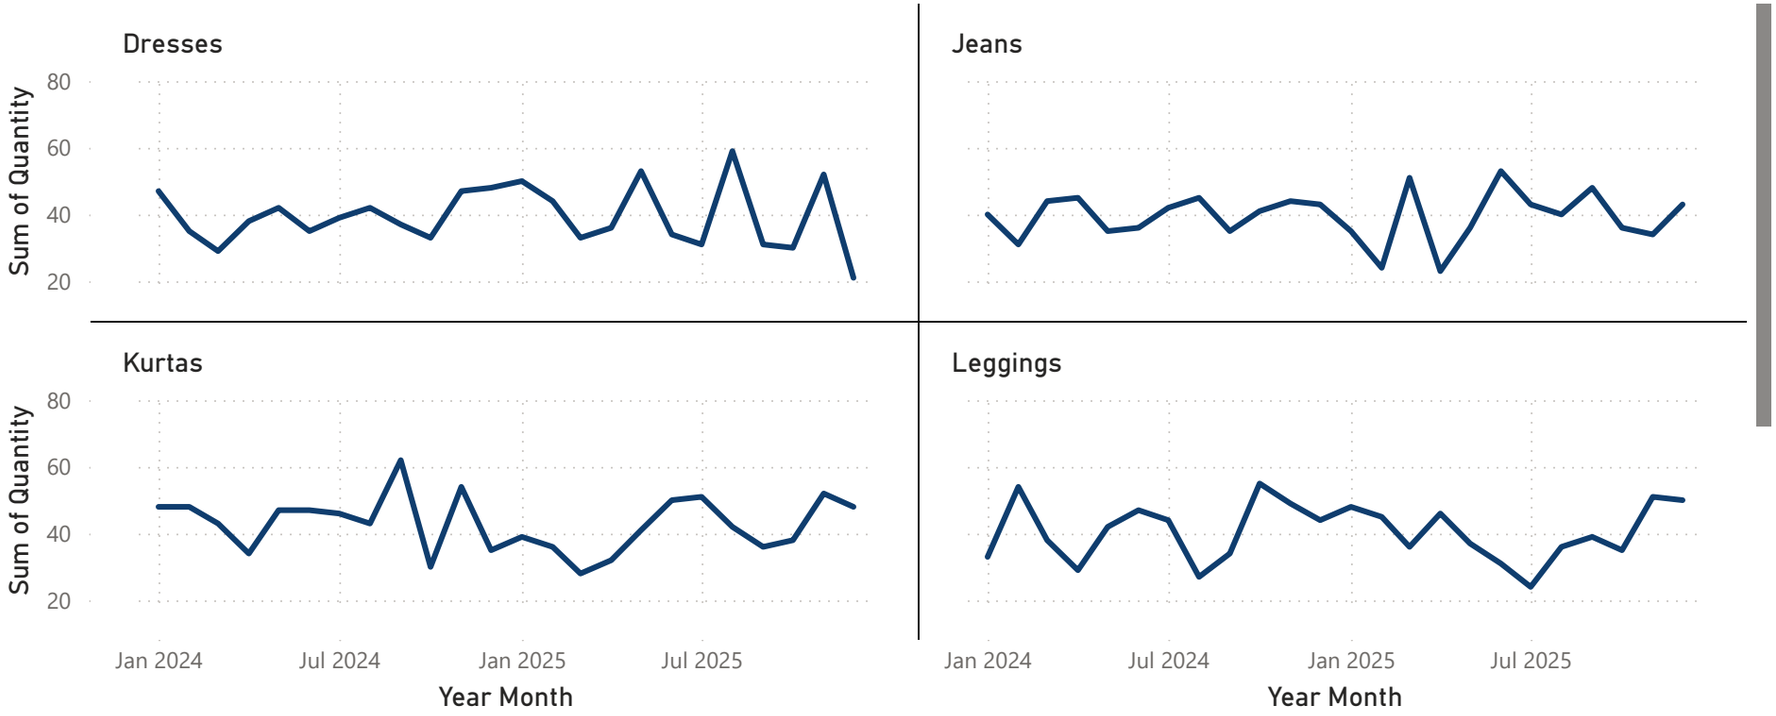

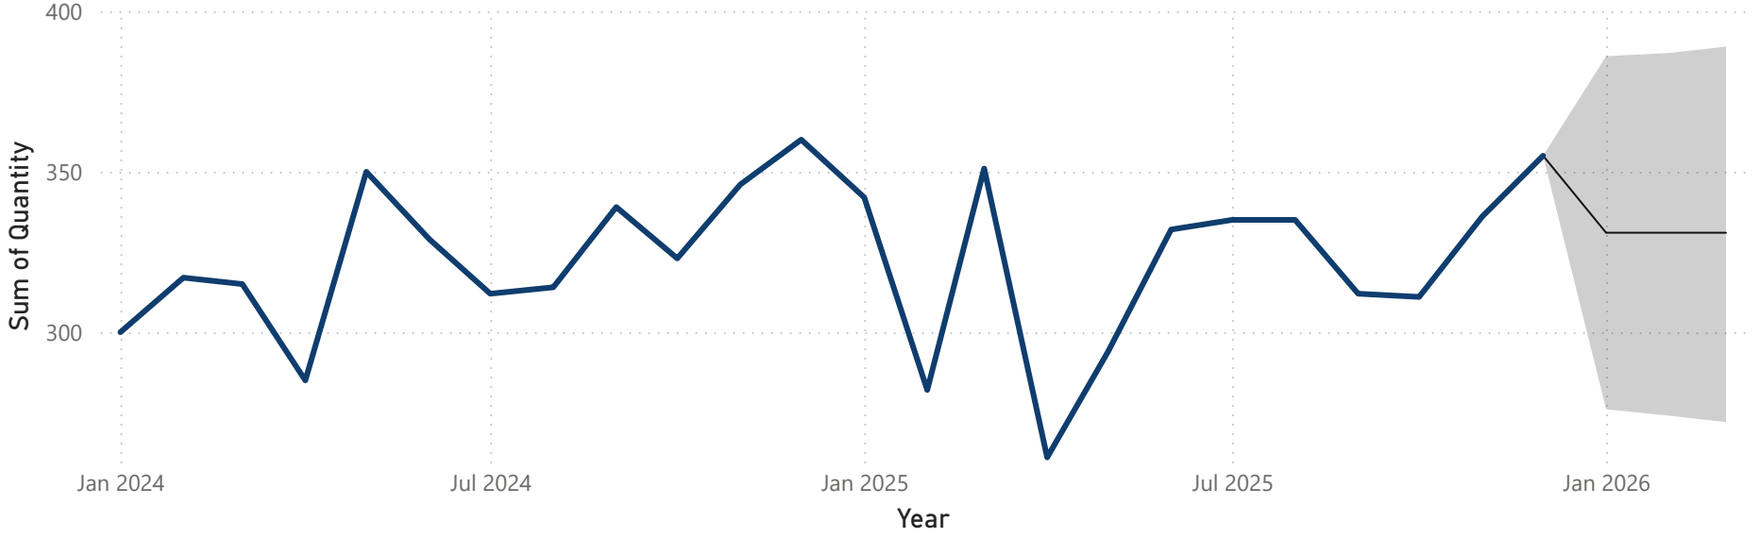

Insight: Monthly sales show seasonal pattern - peaks in May 2024 and Dec 2024 (festive). Lowest in Apr 2025. Forecast for next 3 months predicts sales will recover and stabilize around 0.9M-1.0M.

Recommendation: Increase inventory for T-Shirts and Kurtas category before Dec peak. Reduce discount from 60% to 45% to maintain profit.

Sum of Quantity by Year, Month and Category

Overall Demand Forecast -Next 3 Months

Insights: Dresses demand shows slight declining trend with high volatility (40-80 units). Leggings demand is recovering and increasing in last quarter 2025 after mid-year dip. Jeans is most stable with upward trend, Kurtas volatile. Overall quantity forecast shows stabilization at ~300-350 units.

Recommendation: Reduce inventory for Dresses, increase for Leggings and Jeans for next quarter.
